Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☐ Responsive to communication(s) filed on ____.
- 2a) ☐ This action is FINAL. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

DETAILED ACTION

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-15, drawn to a system comprising an indicated discomfort reliever and an indicated nutritional supplement, classified in class 514, subclass 458, 474, 52, 276, 251, 725, 629, 277, 165, and 348; and class 424, subclass 400+.
- II. Claims 16-20, drawn to a method of providing discomfort reliever and nutritional supplement, classified in class 514, subclass 458, 474, 52, 276, 251, 725, 629, 277, 165, and 348.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as product and process of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of using that product (MPEP § 806.05(h)). In the instant case the product as claimed can be used in a materially different method of using that product such as anti-arthritic method.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Art Unit: 1617

Election of Species

Claims 1-20 are generic to a plurality of disclosed patentably distinct species comprising agents of indicated discomfort reliever and indicated nutritional supplement.

Some of the species including, for example:

If the compound is Vitamin A, it is classified in class 514, subclass 725; if the compound is vitamin B₁₂, it is classified in class 514, subclass 52; if the compound is vitamin B₂, it is classified in class 514, subclass 251; if the compound is vitamin B₁, it is classified in class 514, subclass 276; if the compound is vitamin B₆, it is classified in class 514, subclass 348; if the compound is vitamin C, it is classified in class 514, subclass 474; if the compound is vitamin E, it is classified in class 514, subclass 458; if the compound is acetaminophen, it is classified in class 514, subclass 629; if the compound is ibuprofen, it is classified in class 514, subclass 277; if the compound is aspirin, it is classified in class 514, subclass 165.

Due to the structural dissimilarities of active compounds encompassed by the claims and their corresponding diversity in classification, the search for all species presents an undue burden on the office.

Applicant is required under 35 U.S.C. 121 to elect a **single disclosed combination** of a) the discomfort reliever compound(s) **and** b) nutritional supplement compound(s), even though this requirement is traversed.

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the

Art Unit: 1617

case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Because the above restriction/election requirement is complex, a telephone call to applicant's agent to request an oral election was not made. See M.P.E.P. Sec. 812.01.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to San-ming Hui whose telephone number is (703) 305-1002. The examiner can normally be reached on Mon 9:00 to 1:00, Tu - Fri from 9:00 to 6:00.

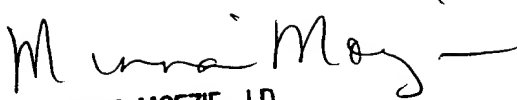

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Minna Moezie, J.D., can be reached on (703) 308-4612. The fax phone numbers for the organization where this application or proceeding is assigned are (703) 308-4556 for regular communications and (703) 308-4556 for After Final communications.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is (703) 308-1235.
